

Ceracoat is a coating for
ANY SURFACE, using **Nano Technology**

STAIN PROOF

fabrics with no change in textile feel & breathability

Don't Clean any more, COAT! CERACOAT! We Coat, You Coat, Ceracoat

Presents:

ABOUT US

Ceracoat™ is a company dedicated to the development of Nano-Technology that both protects your world and makes your life easier. Dr. Keller and Mr. Harmsen came up with the idea of creating a ceramic coating for engines.

In 1988 the product was born, and since it is a ceramic coating the Ceracoat™ name was legally registered. Today, Ceracoat™ has about 100 applications for consumers and about 150 for industry with a total of about 250 different applications.

ABOUT US

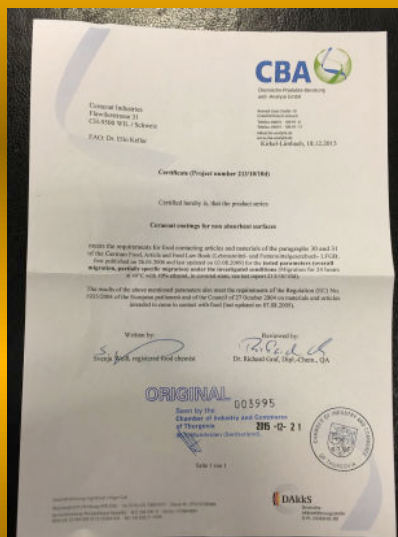

Since the inception of the company, Ceracoat™ has maintained a special laboratory for researching Nano-Technology and its capabilities for covering and protecting almost every surface.

Elio's vision for Ceracoat™ is taking the Ceracoat™ Brand to new heights; aligning the beauty and significance of its products in tune with the needs of people who dream of living in sync with green technology.

ABOUT US

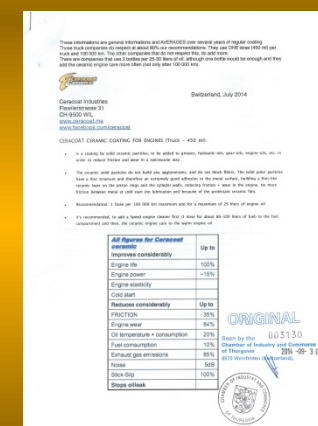

Together with his wife, VP Carmen Keller and the Ceracoat™ R&D Department, our team is working on new exciting formulas that will revolutionize the way you live your life. Nano-Tech for your work and your life style.

Ceracoat™ is 100% Swiss made, with an incredible Swiss Warranty, utilizing the latest technologies.

sample	Contact angles before UV [°]		Contact angles after 250 hours of UV [°]		Contact angles after 500 hours of UV [°]	
	hydroxide	hexadecane	hydroxide	hexadecane	hydroxide	hexadecane
